Bibliography should follow the same format of your manuscript (APA, MLA, Chicago, etc.)

VITA

Indent paragraph. The vita is required and is only a short biographical summary of the student. Students typically include information such as where they are from, what they have studied in the past, degrees they have earned, future endeavors and sometimes students will list some of their accomplishments such as journals that they have published. We ask students not include any information that might be too personal such as addresses, phone numbers, etc unless they don't mind many people viewing the information.

Vita should be typed in paragraph style; first line of each paragraph indented; double spaced; no page number at bottom center.
