ACADEMIC TOOLS

The Five R's will help you take better notes based on the Cornell Method:

1. **Record:** Write down any information given during the lecture which you believe will be important
2. **Reduce:** Summarize your information and list keywords/phrases to recall
3. **Recite:** Test yourself on the words in the recall list
4. **Reflect:** Think about the information you received during the lecture. Determine how your ideas fit in with the information
5. **Review:** Look over your notes so you will remember a great deal more when you take a test
